

What have I worked on?

- Performed EDA and analyzed the visualizations of data analysis.
- Generated visualizations to represent results of answers to the first two base questions about end to end travel times and disparities in service level of the different routes.

What will I be working on next?

- Work on addressing the remaining base questions.

Have I run into any issues? Do I need help?

- No blockers on our side right now

Team Lead: Have I talked to the client recently? When are we meeting with them next?

- Not required at this moment
