

1. What have we worked on?

We collect data on accessibility usage and census tracts, which will allow us to understand how accessibility factors are impacted by bus performance.

2. What will we be working on next?

Moving forward, we are going to look into the data collected to see if we can draw stronger conclusions for our extension project.

3. Have we run into any issues?

We have not.

4. Have i talked to the client recently?

Yes at lab.
