What have we worked on?
- Completed all tasks related to Deliverable 2

What will I be working on next?
- Try find sub route shapes to get more detailed insight into delay times for extension topic
- Potential exploration into weather data with a specific neighborhood (rain vs snow vs etc vs no weather…) → Use a public weather API to get weather related data on a specific neighborhood (because of limited API calls on a free tier, our scope is limited to one neighborhood)
- Create presentation for Deliverable 3

Have we run into any issues? Do we need help?
- N/A
